

Greece's Antikythera Mechanism

As if the clock was on fast forward;
this is Greece's pride. Re-discovery
sparkling like priceless jewels

sand erosion reveals the artefact,
buried like the Pharaoh's tomb, heated
like a microwave, it's dial turned to its max

Greece needs technology now. Ways to chart the phases,
to mimic its Solar System or to
look inside itself. Analyse its hateful data

should it use the Antikythera Mechanism?
Find that gas, bombs and new technology
cannot fill the gap? They are incapable of peace.

what is there prediction? That by August 2024
They will they have synchronized with the seasons,
made connections between centuries

returned the dial to peace;
Normal time restored.
